

INUMBRA FLOOR TO CEILING

DISTRICT EIGHT

M3009

Inumbra designed by Michele De Lucchi is a reinvention of modular components that build a shelving system. From sculptural stature to discreet details, Inumbra portrays the Italian architect and designer's renowned sensibility for norm-defying form, while highlighting District Eight's technical capability in pared-back utility and clarifying aesthetic.

Antique Copper

4 Dry Smoked Oak - MDO

Blackened Steel

INUMBRA COLLECTION BY MICHELE DE LUCCHI

Michele De Lucchi – an internationally renowned designer, architect and writer – has been one of the biggest names in architecture and Italian design scene since the 1970s. During the age of radical and experimental architecture, he was a prominent figure in movements like Cavart, Alchymia and Memphis where he contributed his creativity and inclination for experimentation to designs including furniture, lighting and metal objects.

Among his works for major Italian and European brands, his global-bestselling Tolomeo lamp produced by Artemide had earned him the Compasso d'Oro award in 1989 and in 2001 for Olivetti's printer Artjet 10.

In his career, he developed numerous important architectural and hospitality projects in Italy and abroad including cultural, corporate, industrial and residential buildings such as the Triennale di Milano, the Palazzo delle Esposizioni in Rome, the Cini Foundation in Venice, the Neues Museum in Berlin and the Gallerie d'Italia in Milan.

At present, Michele De Lucchi is founder and member of AMDL CIRCLE, a creative multidisciplinary studio renowned for its humanistic architecture and design. Since 2018, AMDL CIRCLE focuses on Earth Stations, future sharing architectures that combine technological development with humanist principles.

Michele De Lucchi's professional work has always gone side-by-side with his personal exploration of design, technology and crafts. His aim of combining traditional techniques and craftsmanship aligns with District Eight's ethos and vision in furniture design and production that the brand has been pursuing since 2010.
