VIỆT NAM

MADE IN SÀI GÒN

District Eight is a furniture brand established in 2010 in Thành Phố Hồ Chí Minh, Việt Nam. The name refers to one of the city's 24 Districts, in the heart of which we set up our first factory and office. We design and build insightful products that tell a story unique to Việt Nam's enchanting landscape, with a confident take on contemporary living and an understanding of modern elegance.

**WE DESIGN AND CREATE QUALITY FURNITURE  
INSPIRED BY VIETNAMESE HERITAGE.**

Carefully crafted and delivered in high-quality standards, District Eight's defining signature comes from a commitment to elevating workmanship, refining aesthetic, and reframing functionality. Rooted in the passion to build and ever-improve, we continually strive for techniques and solutions that transform authentic ideas and materials into furniture pieces of distinguished values and character.

From the drawing desk to the production line, we seek to honor the tradition of dedicated craftsmanship in Vietnam through every considered detail, which propels our products from domestic to Asian, European and American markets. Since 2010, our products have become synonymous with Việt Nam's creative energy, blending global insight with inspiring traditions.

## INUMBRA

*Designed by  
Michele De Lucchi*

Inumbra is a collaborative study between Michele De Lucchi and District Eight, resulting in reinvention of modular components that build a shelving system. From sculptural stature to discreet details, Inumbra captures the Italian architect and designer's unique expressions, while highlighting District Eight's technical capability in pared-back utility and clarifying aesthetic.

The structural elements are as easily assembled as seamlessly adjustable to varying needs and tastes. With unexpected rhythm and compositions, Inumbra poses a refreshing expression that casts new light on a long-standing staple.

Inumbra rests on the floor but is fixed to the wall. Securely anchored thanks to a structural yet simple grid of posts, the shelves have zero visible screws once assembled. Any inherent joints are concealed with metal caps, giving the Inumbra shelving system a seamless and coherent look.

Architect  
MICHELE DE LUCCHI

Michele De Lucchi is an Italian designer and architect - one of the greatest representatives of Italian design of the last few decades. He is a prominent figure in movements like Alchimia and Memphis.

He has designed furniture for the most known Italian and European companies. For Olivetti, he was Director of Design from 1988 to 2002. He has completed architectural projects in Italy and abroad, including cultural, corporate, industrial and residential buildings.

“ Inumbra is an architectural object of imposing presence. It responds to the fluidity of behaviors in an increasingly interconnected world, where the lines between private and public spaces are blurred and influencing each other.”

PROJECTING ELEMENTS

End-caps are designed with built-in magnets that allow easy attachment to shelves

The post's footer can be adjusted up to 7mm

The brackets come in fitting options that allow flexible spacing between shelves. Inumbra can accommodate a wide range of displays, including books and folders, objects and rarities, among many other collections.

Cabinet and cabinet with drawer are reversible and fixed to any desired place on the shelving system.

Inumbra can be configured to specific needs. From variable width and height to positional cabinets, units can be added over time. It is precisely the multiple combinations and different positions of the elements on the structure that give it an unexpected rhythm, while still maintaining a motif of linearity and utilitarian usage.

# JOSS

Designed by  
Toan Nguyen

Joss is a clear illustration of the fact that, in design, the quest for simplicity is the result of a complex journey. Creating a monolithic sofa characterized by exceptional seating comfort and coverings that emphasize the roundness of the volumes while maintaining a clear definition of the edges through particular attention to the seams is challenging.

Joss oak bases, whose natural tones are the result of an ingenious process developed by District Eight, are characterized by an upper curvature, a declared reference to ancestral elements of Southeast Asian architecture.

Joss is, above all, a manifesto project of the high-quality craftsmanship acquired over the years by District Eight, which today integrates almost all the furniture trades and crafts for total control of the production process.

Designer  
TOAN NGUYEN

Graduating from the ENSCI (Paris) in 1995, Toan Nguyen pursued his training in Barcelona with Alberto Lievore, and then in Milan with Antonio Citterio for a decade as Head of the Design Department and Partner.

In 2009 he founded his own studio in Milan, subsequently embarking on a series of successful collaborations with several major brands in high-quality industry and fine craftsmanship on furniture, lighting, ceramics, as well as on technological products.

*"If Joss conceals details that attract the eye and the hand without ostentation, it is harmony and serenity that prevail."*

The continuity of curved lines are mirrored in Joss' generous foam seats, backrests and armrests, they emphasize comfort in exceptional volumes and upholstery, while gives this resolutely contemporary collection a strong identity.

# STILT

*Designed by  
Toan Nguyen*

Its conscious and no-frills design underlines District Eight’s distinctive vision to articulate Vietnamese storied craftsmanship from a contemporary perspective - one that’s inspired by European ingenuity, and resonates with people all over the world.

With the sofa and armchair, separate back and seat cushions gently slot into a slender wood platform that comes in either leather or fabric upholstery. Together they’re supported by a sinuous frame, whose seemingly simple structure pays homage to traditional stilt houses found in Northern and Central Việt Nam.

That bearing base consists of elegant wood beams and steel bars, laboriously worked on and sturdily unified by recessed joints of discerning precision. Such details also pertain to the collection’s table set, providing support for its solid oak top.

A new interpretation of District Eight’s signature forms and materials, the collection eloquently captures the beauty of design and the mood of modern-day living in an ever-changing world.

“STILT IS THE RESULT OF  
A QUEST FOR HARMONY IN  
CONTRAST.”

The challenge of the STILT collection for District Eight comes first of all from the particular context: to design for an atypical Vietnamese company a collection of furniture that draws its inspiration from the culture of Việt Nam, highlighting its tradition of craftsmanship while maintaining an ongoing dialogue with the manufacturing culture of contemporary European furniture.

“ The metal completes the construction, playing an essential role in stabilizing the structure while lightening the silhouette. As much as the wood is generous and round, as much the metal is its exact opposite. ”

**STILT ARMCHAIR**

A delicate balance between understated clarity and intuitive elegance, the Stilt armchair is outfitted with enveloping cushions that relax the body along the line of an ergonomically reclined platform, while providing tactile comfort thanks to their minute construction.

A perfect companion to pair with the Stilt Armchair or your favorite District Eight seating, the Stilt Ottoman is drawn from the collection's sense of harmony and naturalness, brings in a pleasing complement to Stilt's extensive lineup, and accommodates space for everyday rest and leisure.

**STILT CHAISE LOUNGE**

Part of a broader collection designed by Toan Nguyen for District Eight, the Stilt Chaise Lounge is an expansion on the charm and ingenuity that Stilt is beloved for. Its steel and oak base is signature of the collection, alluding to traditional stilt houses in Southeast Asia.

The reclining frame, crafted from oak and upholstered in leather or fabric, is ergonomically contoured, and attached with a form-fitting layer of foam to provide comfort. Also comes with an adjustable headrest, the Stilt Chaise Lounge makes a calmed cocoon for ultimate relaxation in your interior settings.

**STILT TABLE**

The Stilt Table is structurally refined yet also accentuated by the pleasing charms of its materials. Minimal in form, it in turns offers versatile use through a wide range of configurations including high and low versions, with different sized tops in round, square, or rectangle.

STILT SOFA

Soft, spacious, and instantly inviting, the Stilt sofa is a modular system that can be easily adapted to settings of any style and varied sizes. With balanced proportions between its extensive, streamlined platform and the padded, enriching cushions on top, the sofa essentially encapsulates the European sense of modern design, while also adding a touch of authentic Asian influence, as seen through its wood-based frame and additional smaller cushions for the armrests.

# COLLETTE

*Designed by  
Adam Goodrum*

Through a harmony of verticals and curves, the Collette chair offers an abstract reference to the Vietnamese traditional script, and a love letter to the craftsmanship of timber. The design's sweeping backrest forms a collar that's instantly distinctive and inviting. Extended to swooping ridges of the armrests and their rounded ends, the frame provides ample support for ease and comfort. Elegant yet robust, Collette comes in with a wide range of upholstery for its seat cushion, lending the collection a level of formality and sophistication in any space it finds a home in.

Designer  
ADAM GOODRUM

accolade, he has worked internationally with Alessi, Cappellini and Kvadrat and locally with Nau and Tait. Adam is half of Adam&Arthur, a practice exploring the nexus of traditional straw marquetry craftsmanship and contemporary object design. Adam's work has been showcased throughout the world and is collected by museums in Australia and internationally.

Adam Goodrum founded his Sydney design studio in 2006. A design obsessive since graduating from the University of Technology Sydney in Industrial Design, his practice is characterised by invention and curiosity, while his aesthetic and approach are inflected with rigor and integrity. Focusing on furniture, product and collectible design, his work is inherently elegant, often underpinned by a poetic union between art and mathematics. The recipient of every major national design

CHAIR

COLLETTE  
LOUNGE CHAIR

## TORUS

Torus collection of side and coffee tables, Torus blends together contrasting textures and materials to achieve a sense of unity, and sculptural beauty. Its design creates a well-proportioned structure, with a cylindrical base made of volcanic stone and steel jointly balanced by a round timber top, hand-finished with unique grain texture. Simple yet singular, Torus can give weight to a diverse set of styles in contemporary settings, and fit well with District Eight's collections of chairs.

## FAIFO

Ø 200 cm

Ø 160 cm

Ø 120 cm

Faifo was the former moniker of Hội An, a city in the central region of Việt Nam famed for its well-preserved Old Town District that once served as a prosperous trading port in Southeast Asia. This collection of dining tables is inspired by the city's unique blend of cultures far and wide, especially countries from the Far East. The round tabletop, with a complement of the Lazy Susan made of natural marble on its largest variation, is a tribute to gatherings and conviviality surrounding traditional dining tables. Featuring triple or quadruple wings of legs for flexible seating arrangements & spaces, the Faifo's hand-finished treatment of solid timber invites elegance, tactile comfort, and elevated dining experiences.

**FAIFO TABLE WITH LAZY SUSAN**

**FAIFO TABLE MEDIUM**

Ø 160 cm

**FAIFO TABLE SMALL**

Ø 120 cm

## AMES

Ames is a collection of bar, counter and dining chairs. Laid-back, almost egg-like in shape, and fanning out towards the seating cushion on both sides, the design's backrest is constructed from wood frame then fully upholstered in fabric or leather. In place of hidden joints, the chairs' tapered oak legs are extended upwards onto seating cushions and backrests, affixed with brass details that gently call to mind District Eight's signature combination of our favorite materials. Also featuring ensconcing armrests in other variations, the Ames collection can inspire a quiet sense of warmth and elegance in the heart of beloved spaces.

## TONKIN

Inspired by Vietnamese traditional altars, the Tonkin table is an exercise in capturing the stillness of motion in everyday objects. The silhouette is pared down to classic clean lines. While its rectangular oak base curves at the top and features concave contours on the legs, the tabletop brings in a touch of lightness with its thin steel frame that gently curls up on both ends. The Tonkin table stands for District Eight's craftsmanship to underline structural clarity in design, and transform local inspirations to new contemporary expressions.

# TOTE

A collection of cabinets, credenzas, dressers and tallboys, Tote honors the simple pleasure of personal keepsakes, collected curiosities, and organized routines. Streamlined in form and function, the collection's standard builds with drawers and/or doors are crafted in District Eight's signature materials of oak.

Subtlety for details is highlighted upon the evenly contrasted steel legs, while the highlight awaits in Tote's hand-crafted handles – outfitted in high-quality leather, they provide tactile pleasure and warmth upon touch. The collection is a testament to how everydayness can be elevated to edifying revelations.

## STACKING

The Stacking Desk stays true to the time-honored principles of dedicated craftsmanship, insightful design, and understated aesthetic.

Instantly recognizable in the Stacking Desk are the minimal lines that accentuate the beauty of high-quality materials: polished oak, blackened steel, and strategically placed brass accents. While practical details such as drawers and a hidden mini box for cables are neatly integrated into the overall streamlined structure, the desk's rounded edges are thoughtfully studied and crafted to deliver comfort for long hours of seating and support.

COMPLETE CONCEPT  
STACKING CABINET

The Stacking Cabinet is crafted in sturdy solid oak and designed with a contemporary flair. The two heights and two lengths respond to various storage needs, but also create sophisticated layout options when stacked.

STACKING BENCH

Designed to effortlessly move from seating to shelving, this unique Stacking Bench creates distinct storage options. Crafted from solid oak, blackened steel and highlighted with brass details.

Adding a dynamic touch to the whole design, brass caps on the collection's benches and cabinets can be removed to install other Stacking benches on top, thus creating a versatile shelving system for your favorite objects at home and office.

## GAMES COLLECTION

FOOSBALL TABLE

-p.124

# CHESS SET

*With Authentic Inspiration*

Modeled on the exacting standards of our beloved furniture, the Chess Set by District Eight combines the sheer beauty of materials with authentic inspirations from Vietnamese court attires of yore, resulting in unique pieces for keeps and magnetic hours of play.

The chessboard is constructed of smoked oak and ash wood, meticulously hand-picked and refined to perfection, and equipped with cylindrical steel legs for weight support and easy pull. Cast in aluminum with brass and black finishing, the stylized pieces are padded with felt to provide sensory comfort for players.

## MAHJONG / CARD TABLE

Built of oak with casting-iron details, the Mahjong/ Card Table can easily switch between dining functions and game activities by turning the tabletop upside down, ensuring a comfortable fit in any space.

Card Table features drawers to store game chips and place your drink. By flipping over the tabletop, the design can easily switch from game to dining functions.

## PING PONG TABLE

Our signature Ping Pong Table is both interactive and functional. It will seamlessly convert a space into a leisure or work space by shifting from a game table to a meeting or dining table.

# FOOSBALL TABLE

Our signature Foosball Table is designed and engineered to the finest detail. Every component is crafted, combining cast iron, oak and concrete, with unique details such as

the player's hats. The Foosball Table has already been a statement piece within the most inspiring spaces worldwide.

## POKER TABLE

An articulate statement imbued with poise and precision, our Poker Table features an oak top with a crafted leather edge and felt top center, while the base is built of solid cast iron.

# SHUFFLEBOARD TABLE

Constructed from oak, with a hand stitched leather landing surface and a game board of laminated solid oak that is finished with a high durability lacquer. The solid cast iron base features adjustable feet for level play.

**NEW**  
**TACTILE PALETTE**

These new fabrics and materials are cultivated to reflect the depth and sophistication of our continually expanding collections, whose refined quality is considerably invested.

**Beige Oak - MBO**

**Dry Smoked Oak - MDO**

**Fir Wood**

**Volcanic Stone**

Elegant and smooth, a new option of light oak finishing besides the Raw Oak option.

Modern and warm, Dry Smoked Oak is a continuation of our signature technique of fuming wood finishing with water-based coating.

Our new timber variant is hand-finished to showcase a distinctive look - enriched with texture and subtle wood grain highlights that brings elegance to this darkened shade.

Also known as Lava Rock, this material is a natural volcanic rock solidified from molten lava after conditions of intense heat and pressure. It's a beautiful raw material whose original texture is something we'd like to explore for a new table collection.
