

# DINH POKER TABLE

4010

DISTRICT EIGHT

Dinh Poker Table's well-rounded charm is derived from a balance between volume, texture and style. Its singular structure is crafted from solid oak, and composed of the modernist-architectural motif that inspires this collection. The tabletop's edges are overlaid with high-quality leather, while its playing surface is covered with felt fabric. These hands-on detailing adheres to a harmoniously restrained palette, and enriches the table's quiet sophistication.
