

DINH FOOSBALL TABLE

4007

Dinh Foosball's design employs the fine skills of our woodworking craftsmen to create a sculpturally shaped table outfitted with characterful details. Its distinct frame is crafted from solid oak, faithfully emulating the architectural elements that typify Saigonese modernist buildings. A concrete playing surface ensures quality game time, while the steel foos-men take on a refined form with sculpted headwear inspired by Vietnamese traditional hats.
